## Total

### 1. Total Manual Execution Metrics

Total Planned Test Cases	185
Total Executed Test Cases	154
Total Passed Test Cases	138
Test Case Coverage Percentage	83.24%
Total Failed Test Cases	23
Total Reported Bugs	18

### 2. Total Automation Execution Metrics

Total Planned Test Scripts	44
Total Executed Test Scripts	44
Test Automation Script Coverage %	100%
Total Passed Test Scripts	44
Total Failed Test Scripts	0

### 3. Overall Remarks and Conclusion

The manual testing phase executed 154 test cases, with 138 passing and 16 failing. A bug was logged for the failed test case. Automation testing for 35 test scripts was successful, with 100% pass rate. Overall, the system appears stable, but further investigation and resolution are needed for the failed test case.
